Unlock the power of **Tripzon^{PRO}**

Tripzon**Pro** is one of the most powerful tools for home-based and large agencies alike.

The growing travel marketplace has seen some **major changes over the years**, and yes this **evolution** has left behind a trail of **lost opportunities** for travel agents. These days, in the **competitive world of travel** going head to head with e-commerce players, you have to be quick, using **the best tools to stay ahead** of the **savvy and impatient consumer**.

TripzonPro is all about **enabling** Travel Agencies to **successfully compete** & grow in the online travel industry

“We achieve this by maximizing our agents’ profit margins, & providing powerful booking solutions for hotel, car, air, transfers & activities.”

- Todd Kelly President & CEO Tripzon, Inc.

The rapid growth of the online travel industry has created great challenges for small, and mid-size travel agencies. The prohibitive cost of travel software, and a highly competitive environment has led to relatively high barriers for automation, and reduced profit margins. Building on our industry experience, technical expertise, and marketing abilities, we sought to create an affordable, value added Travel Booking System with small and mid-size agents and agencies like you in mind.

FEATURED SUPPLIERS

“TripzonPro grants you access to a vast amount of travel suppliers, resources, and aggregators.”

TripzonPro **FLIGHT BOOKING** Solution

Though highly demanded by consumers, flight booking usually generates low profit %, as it most commonly competes with fares similar to published rates on the airline website. For the past couple of years airlines' policy has been to diminish or reduce commission payments to agents, expecting them to charge processing fees for flight booking instead.

TripzonPro recognizes the time to book air and now pays \$20 per air ticket agents book allowing you to maintain a competitive position with your clients and generate additional income by offering a complete solution.
